Pathways to Capital is the theme of the second annual Startup Investment gathering. This year initiates a collaboration between the Startup Investment Community and the Slow Money/Community Capital Community in the Monterey Bay region.

The goal of this interactive event is to provide emerging businesses, investors, Chamber members, and the larger Monterey Bay community with a forum for pathways to funding local and regional startup business projects. This session ends with quick pitches by innovative startups to active investors.

- ❖ Inspire, celebrate, and accelerate entrepreneurship, business startups and local business and investment in the Monterey Bay community and the Tri-County region
- ❖ Identify existing and new opportunities for customer, market and community diversification and growth
- ❖ Provide opportunities for Monterey Bay area businesses to understand "next practice" sustainable business practices, new customer segments, local funding sources, and community investment opportunities
